

RESPONSE TO ON FIELD INJURY OR EMERGENCY

Collapsed and Unresponsive

Major Joint or Limb Injury

Parent Notification of SU Player Injury:

When a serious Seattle United (SU) player injury occurs on the field the coach will notify the parent or legal guardian of that player as soon as possible. The coach will ask the parent to come onto the field if the player cannot be moved or to come over to the player bench if the player can safely be removed from the field. If the parent is not present, the coach or designee will call the parent emergency contact number. The coach will call 9-1-1 if he/she feels it is a life-threatening emergency or that the athlete requires immediate medical attention. Parents of players with a suspected concussion should also be notified as these players require evaluation by a medical professional before a return to activity.

Reporting Procedure to SU Club:

Coaches will notify SU club of any serious SU player injury or suspected concussion causing the player to miss practice or game time. An injury report form will be completed by the coach or team manager and returned to the Club within 48 hours of the injury.
